- PS/2 Connection

Typical Applications

- Aerospace
- Air traffic Control
- Air Traffic Management
- Audio and Visual
- Banking
- Broadcasting
- Commercial
- Defence
- Healthcare
- Industrial
- Point Of Sale

Product Description

CompatibilityThe ADDER TS4 is compatible with all common computers and operating systems including PC, Sun, Bloomberg and Apple.

Choice of switching methodAs with all ADDER switching products, the ADDER TS4 can switch from one computer to another by using keyboard hotkey combinations, three button or wheel mouse or the button on the TS4 itself. The selected channel is shown on the 7-segment display.

Remote switching options There are two remote switching options, ADDER's RC1, which provides a low profile, single button switch with a 7-segment LED display or the specifically designed TS4 remote unit, which has a button and LED display per connected computer.

Compact designTo help keep desks tidy and ease the management of cables, the ADDER TS4 has been designed to fit into the cable baskets commonly found on the back of traders' desks.

Technical Specifications

SKU	TS4
Weight	0.7500
Manufacturer	Adder Technology
Country of Manufacture	United Kingdom
No. Of Ports (Computers / Hosts)	4
Hardware Compatibility	Supports PC, RS/6000, Alpha and SGI computers using PS/2 or Sun (USB & 8-pin styles) and Mac (USB) when using the appropriate CCUSB/CCSUN interface cables.
