Product Description

iKey's IK-77-FSR is a compact and mobile keyboard that is designed for efficient use in military applications, emergency vehicles, warehouse and factory environments. The IK-77-FSR can also be mounted into forklifts or other work vehicles. Like other keyboards in iKey's line, it is built with an industrial silicone rubber body and meets NEMA 4X specifications. This means it is resistant to shock, vibration, extreme temperatures, and humidity. This keyboard features an upgraded force sensing resistor pointing device that offers improved sensitivity and increased durability for easy navigation on your device.
